

# The Mansion Escape - Help

## General information:

You have started a new game, but you don't know what to do. This is a help document to get you going in the game. Your mission is to get out of the mansion. This is a description of the first room you are in:

"The room is like a closet, only a bit larger. The walls are covered in shelves with full of wine bottles. It looks like you are in a wine cellar. The cellar is gloomy, because there is only dim ceiling light. There is a cardboard box on the floor."

Exits available: north

You can try several commands on the things you see or have. For example, you can examine things, open things, use things, get things and unlock things. The text parser understands sentences with "verb + noun". You can also use some commands by just typing a "verb". In the above example, you can see that there is only one exit available: north. If you want to go there, type go north. There is also a shortcut for moving by just typing the direction.

Some rooms have items you can pick up. In this case, you see the following description:

You see here: fishing rod

Some items are hidden inside another thing you see in the room. You just need to open the thing first (for example box) to get the item.

## The most important commands to pass the game:

help	use <i>thing</i>
inventory (or i)	give <i>thing</i>
go <i>direction</i>	unlock <i>thing</i>
examine (or x) <i>thing</i>	kill <i>someone</i>
open <i>thing</i>	quit
get (or take) <i>thing</i>	

## You can also try these:

rest	sleep
sing	listen
drop <i>thing</i>	close <i>thing</i>
lock <i>thing</i>	eat <i>thing</i>
break <i>thing</i>
